Steve - I would like to recheck the As ICP-MS analysis for sample PGDW50-0412. The dissolved As concentration was 12.3 ppb and the digested result was 4.64 ppb.

This sample had a high chloride concentration (57.8 ppm).

Also would like to recheck EPAMW02-0401-1 and EPAMW02-0401-2, again elevated chloride and somewhat elevated As.

Please reanalyze if possible.

Thank. you.
